About MSL

Founded in 1989, the Maryland Student Legislature (MSL) is an incorporated 501(c)3 non-profit corporation. MSL is a model of the Maryland State Government in which Students from universities and colleges across Maryland join together to write, research, and debate issues of local, state, and national importance. Students participate in various educational seminars throughout the year, as well as legislative sessions in the fall and spring. The legislative year culminates with our Annual Session in the spring, held at the historic State House in Annapolis, where our members get to experience the legislative process in the chambers of the Maryland House of Delegates and Maryland State Senate.

MSL Member Delegations

- Carroll Community College
